EDUCATION

Bachelor of Technology in Computer Science and Design Engineering

2021-2025

G H Patel College of Engineering & Technology (Anand, Gujarat)

WORK EXPERIENCE

MERN Stack Developer Intern, Ananta Solution

01/2025 – 06/2025

- Designed and optimized a responsive full-stack web application with modern UI/UX principles, improving user experience and cross-device compatibility.
- Enhanced website performance through efficient component structuring, optimized rendering, and frontend performance improvements for faster load times and smoother interactions.

Jr. MERN Stack Developer, Dhanush - Digisol

07/2025 – Current

- Built a reusable component library of 25+ UI components in React, reducing duplicate code across 3 projects and cutting new page development time by 40%.
- Implemented social login (Google OAuth 2.0) and a seamless one-click login flow in React, increasing new user sign-up completion rate by 28%.

SKILLS

Programming Languages:

HTML, CSS, JavaScript

Frameworks/ Libraries:

ReactJS, Node.js, Express.js, Tailwind CSS, Framer-motion, GSAP, Lenis Smooth Scroll

Databases:

PostgreSQL, MongoDB

Dev Tools:

Cursor, DBeaver, Git, GitHub, GitLab

PROJECTS

❖ SIAP – Student Immigration Platform (Company Live Project)

- Contributed to an existing immigration platform for a German client by fixing bugs, improving form workflows, and enhancing the user experience across student, university, and lawyer modules.
- Implemented new features and optimizations in role-based dashboards, form approval processes, and status tracking systems to ensure smoother application processing and better system performance.

❖ Webiso – Digital Agency Website

- Created a dynamic and animated website for a digital agency with smooth transitions and sliders. The responsive design ensures a smooth experience on both desktop and mobile.
- Designed a contact form that stores submissions in a MongoDB database via an Express backend.

❖ Advanced PERN Todo

- Developed a full-stack Todo management application using React, Node.js, Express, and PostgreSQL with features like CRUD operations, search, sorting, pagination, and bulk actions for task handling.
- Implemented secure authentication and role-based access control (RBAC) using JWT, along with advanced features like PDF generation and email integration via Gmail API for sharing task details.
