EDUCATION

Bachelor of Technology in Computer Science and Design Engineering

2021- 2025

G H Patel College of Engineering & Technology (Anand, Gujarat)

XII 2021

Saint Mary's School (Porbandar, Gujarat)

X 2019

Municipal English Medium School (Porbandar, Gujarat)

MERN Stack Developer

- Developed and maintained full-stack web applications using ReactJS, Node.js, and Express.js, working with both MongoDB and PostgreSQL while implementing features like authentication, role-based access control, and dynamic data handling.
- Worked with modern development tools and practices including Git for version control, RESTful APIs, and implemented functionalities such as form handling, data filtering/sorting, pagination, and overall performance optimization along with bug fixing and enhancements.

SKILLS

Programming Languages:

HTML, CSS, JavaScript

Frameworks/ Libraries:

ReactJS, Node.js, Express.js, Tailwind CSS, Framer-motion, GSAP, Lenis Smooth Scroll

Databases:

PostgreSQL, MongoDB

Dev Tools:

DBeaver, Visual Studio Code, Git, GitHub, GitLabs

PROJECTS

SIAP – Student Immigration Platform (Company Live Project)

- Contributed to an existing immigration platform for a German client by fixing bugs, improving form workflows, and enhancing the overall user experience across student, university, and lawyer modules.
- Implemented new features and optimizations in role-based dashboards, form approval processes, and status tracking systems to ensure smoother application processing and better system performance.

Webiso – Digital Agency Website

- Created a dynamic and animated website for a digital agency using modern UI libraries for smooth transitions and sliders. The responsive design ensures a smooth experience on both desktop and mobile.
- Designed a contact form that stores submissions in a MongoDB database via an Express backend.

Advanced PERN Todo

- Developed a full-stack Todo management application using React, Node.js, Express, and PostgreSQL with features like CRUD operations, search, sorting, pagination, and bulk actions for efficient task handling.
- Implemented secure authentication and role-based access control (RBAC) using JWT, along with advanced features like PDF generation and email integration via Gmail API for sharing task details.
